## PROJECT PROFILE

### East Side Fairmont Fire Station Fairmont, WV

**STRUCTURAL & MEP ENGINEERS:**  
**CONTRACTOR:**

Allegheny Design Services, LLC, Morgantown, WV  
Veritas Contracting, LLC, Fairmont, WV

#### PROJECT SCOPE:

- The New 8,625 GSF, 2-story, Fire Station Building
- The fire station has two stories, which includes two apparatus bays, a lobby and entrance area, kitchen space, day room for the firefighters, apparatus space support, bunks and a fitness area and laundry and bathroom facilities.
- Project includes tumbled brick, it features a tower element that gives attention to the more civic use. Designed with lots of glass, a little bit of steel, and the logo of the Fire Department.
- State-of-the-Art exhaust systems in the apparatus bay, decontamination rooms and units that allow them to completely decontaminate from the apparatus bay and filter into the occupied space of the building.
- LED lighting with automatic controls.
- Entire building stand-by generator for back-up power supply.

**PROJECT VALUE:** \$ 3.1 Million

**PROJECT COMPLETION:** 2022
